

# **Re-imagining Vocational Education: The NEP-2020 Perspective**

**Sitansu S. Jena**

**School of Vocational Studies  
Ambedkar University Delhi**

# Issues & Challenges

# Global Scenario of Students in Vocational Education Sector

# Role of industry input in other countries

## AUSTRALIA

- Industry skill councils, network of industry training advisory bodies (ITABs) work in collaboration with state & tertiary governments.
- Provide information to government on industry trends & future skills
- Support development, implementation & continuous improvements of nationally recognised training products & services

## GERMANY

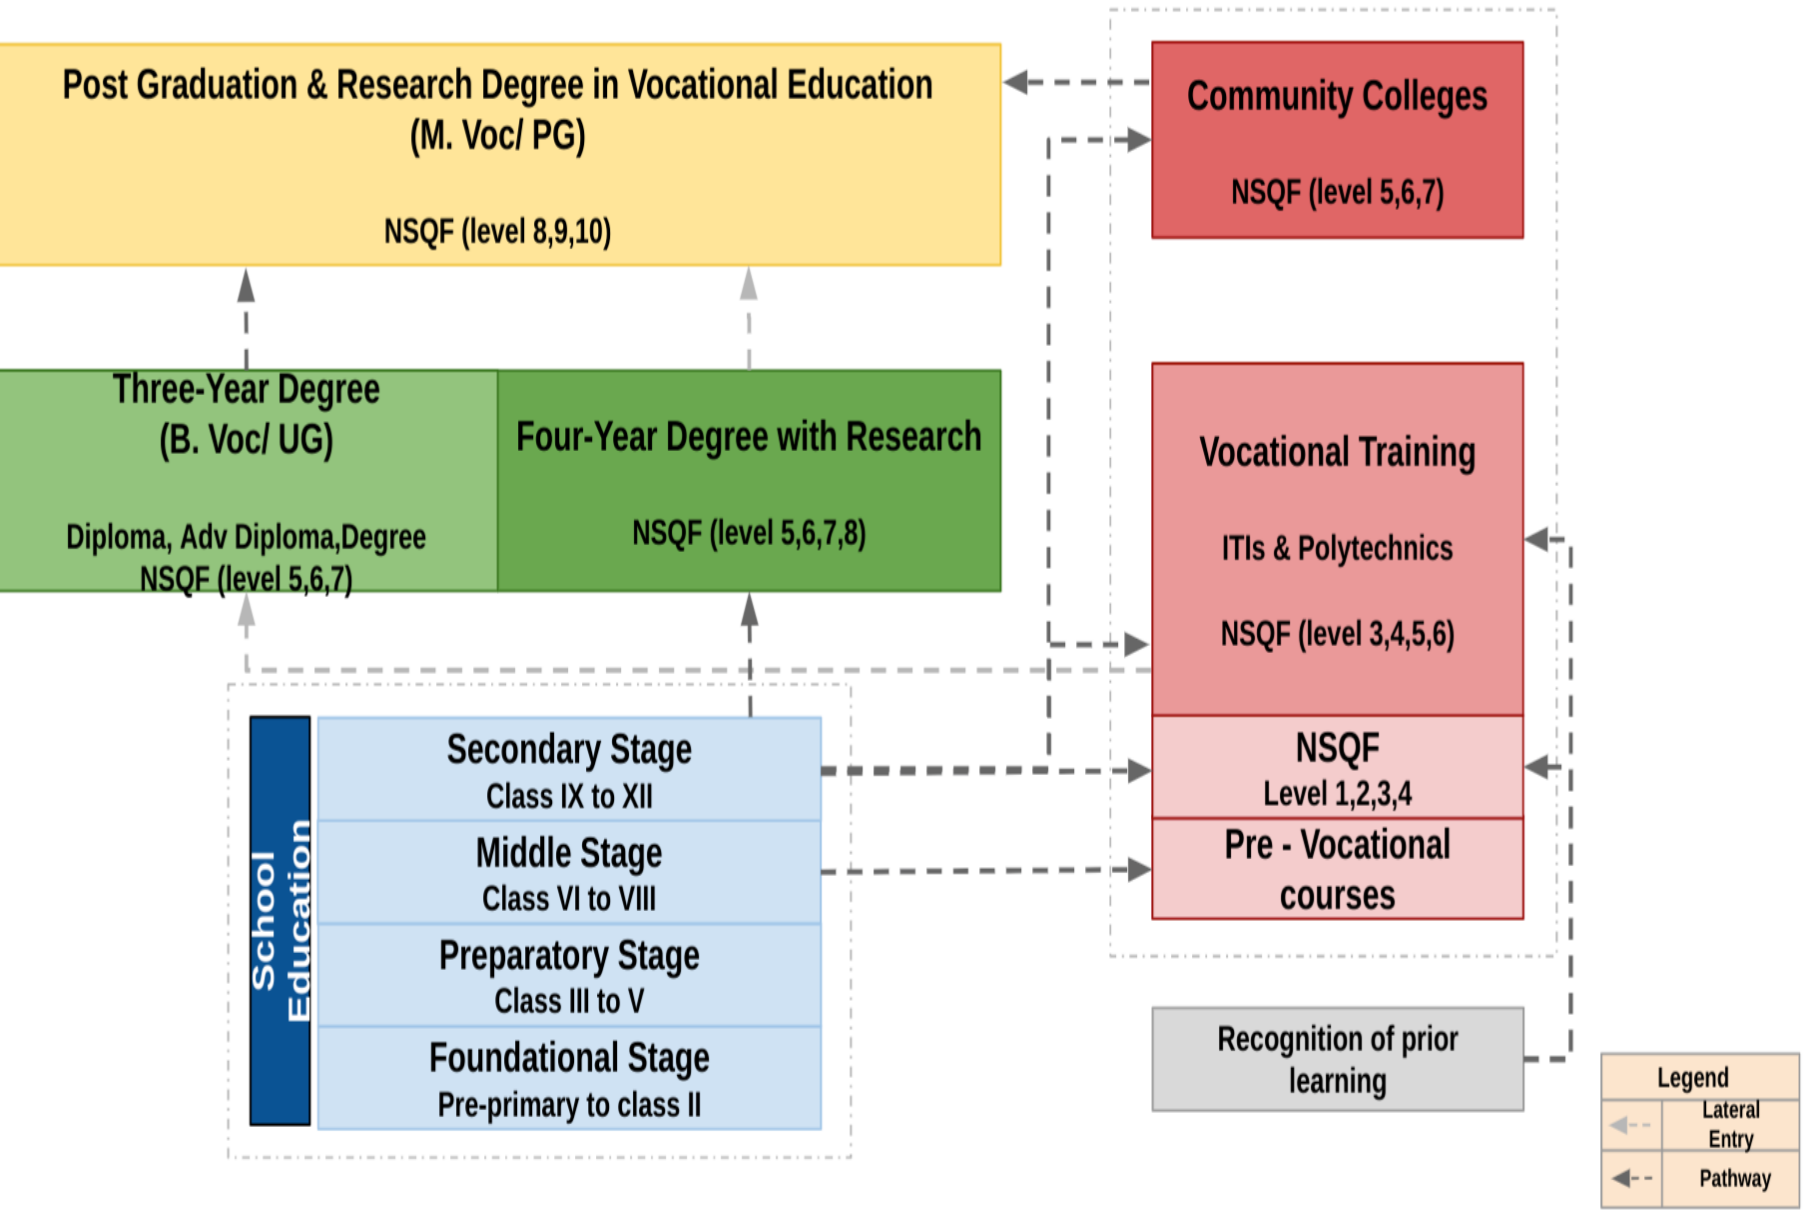

- Industry closely involved in development of regulations & guidelines for vocational training in dual system.
- Industry in collaboration with federal government develops the vocational training curriculum.
- The Federal Institute for Vocational Education & Training (BIBB) performs an advisory role.

## UNITED KINGDOM

- Sector skill councils take formal industry input for trainings.
- These councils establish link with employers in industry sector & take help in developing priorities & targets for sector activities.
- Sector skill councils help in development & improvement of national occupational standards as industry needs.

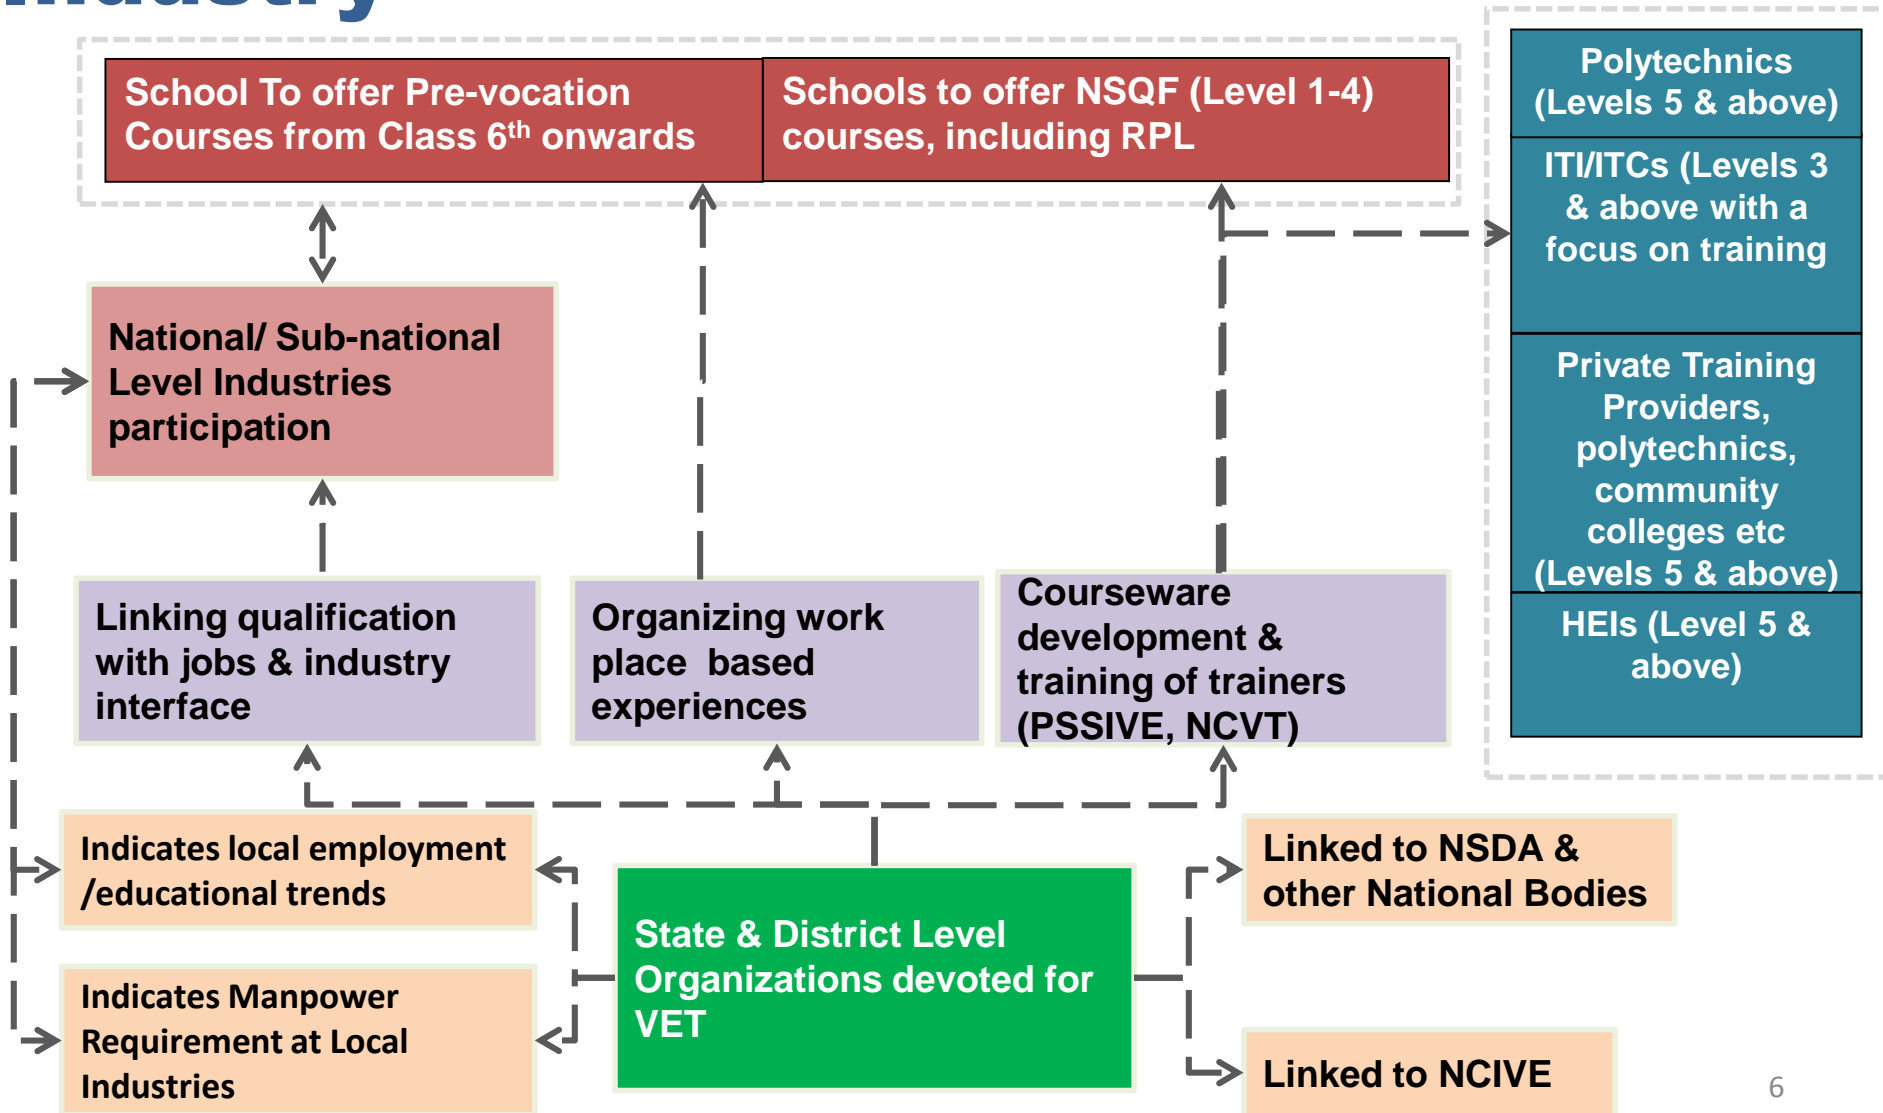

# Proposed Pathway for Vocational Education

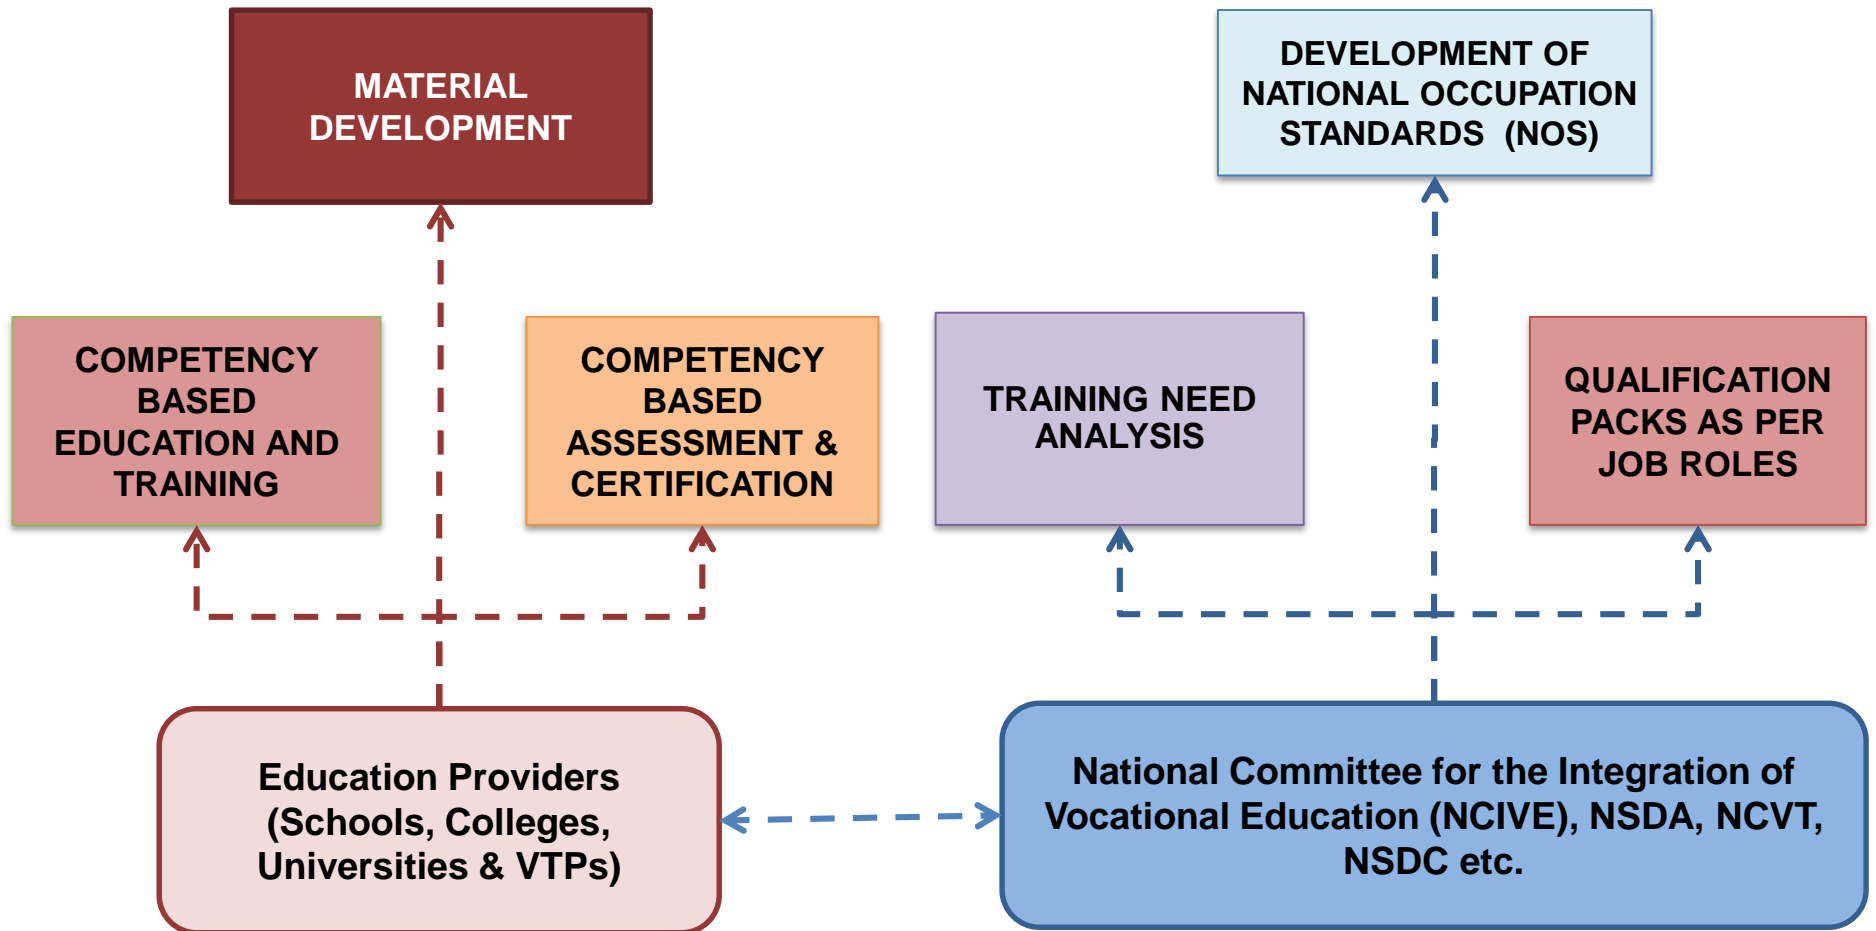

# Proposed Interface between the education system & Industry

# Proposed Training Design

# Organising Curricular experiences

**1. What Educational Purpose  
should the institutions seek  
to attain for skill  
development?**

**2. What educational  
experiences can be provided  
that will likely attain these  
purpose?**

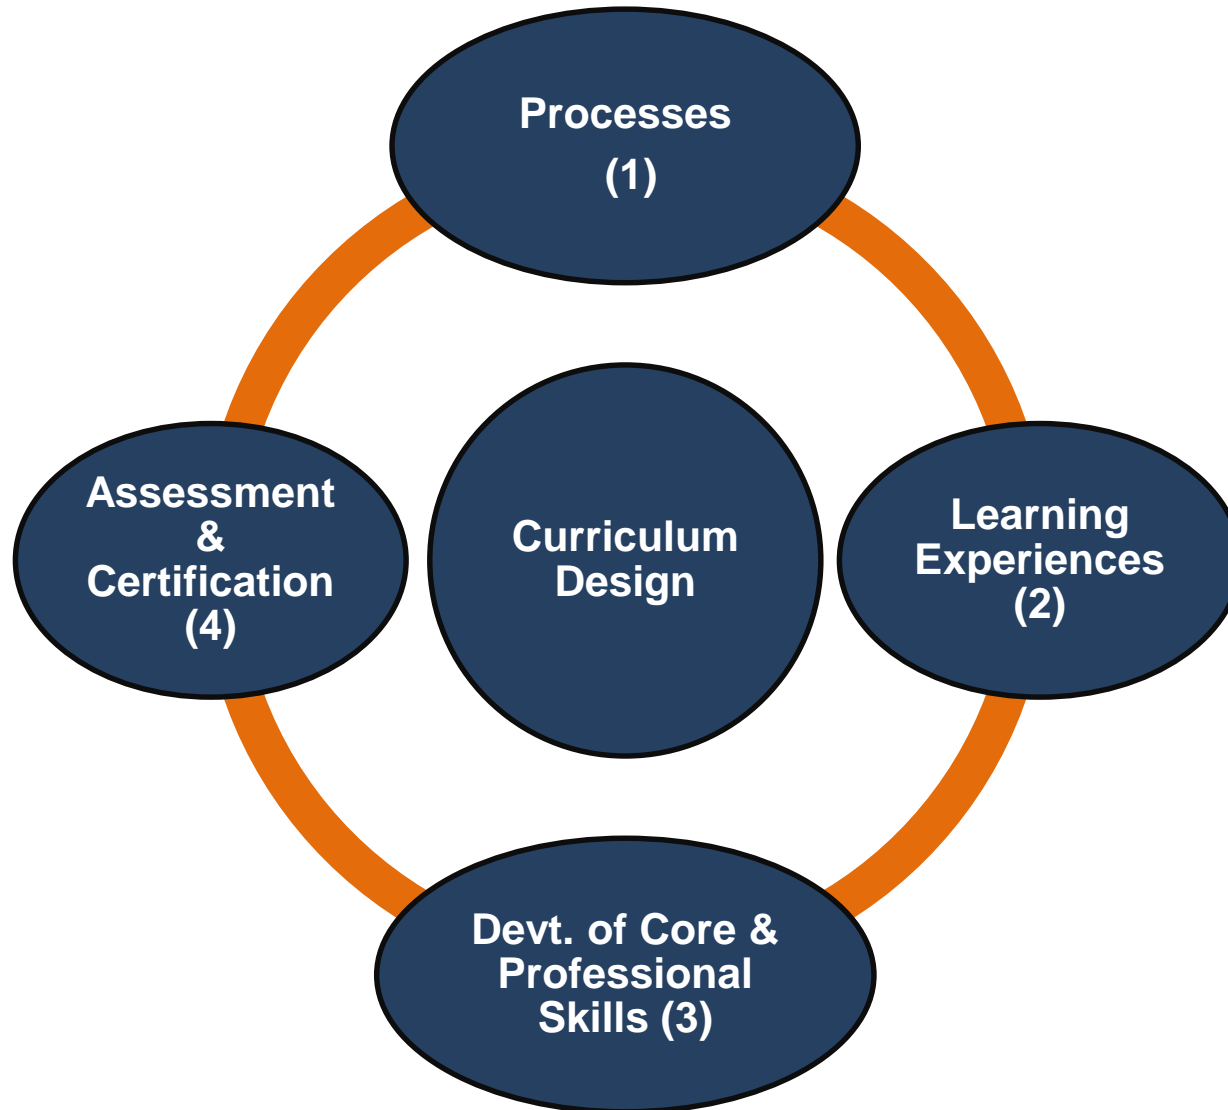

**3. How can these educational  
experiences be effectively  
organized?**

**4. How can we determine  
whether the purposes are  
being attained?**

# Curriculum Design VET (Input-Process-Output Model)

# What should we do?

**Early exposure to the vocational education, thereby removing the barrier of hierarchy in education system**

**Integration of Vocational Education with mainstream education (multidisciplinary approach to vocational education)**

**Developing industry alignment for vocational education (Experiential learning in a dual learning set-up, including VET Research)**

**Appreciating dignity of labour by organising promotional programmes at School, HEIs, Community level**

Thank You
