G20 New Delhi Leaders' Declaration

On September 9, 2023 leaders from G20 members, invited countries and various international organisations met at New Delhi's Bharat Mandapam to adopt the G20 declaration under the Indian Presidency. The declaration outlines the commitments of G20 nations on issues of shared global interests, such as education, economic growth, finance, inclusive growth, sustainable development goals (SDGs), green development, technological transformation and digital public infrastructure, gender equality and empowering all women and girls, countering terrorism and money laundering. It is a significant document which provides a roadmap for a more sustainable, inclusive, and prosperous future for all.

EdWG Chair Summary

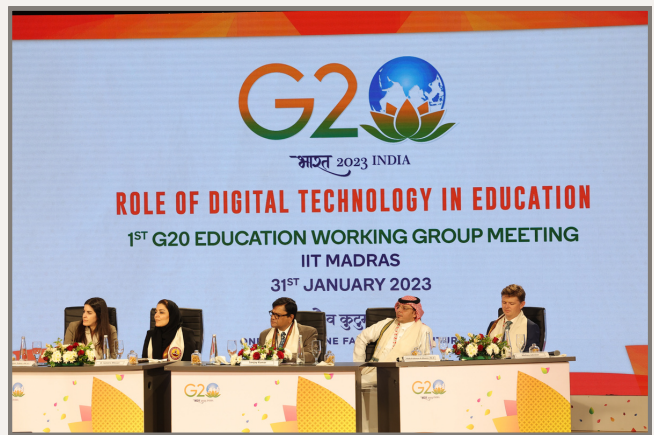

The Outcome Document and Chair's Summary provides a list of joint commitments and agreements on complex challenges and emerging opportunities around the four priorities areas. It is drawn from the deliberations held across the four EdWG meetings, and highlights the common priorities of G20 and invited countries in the domain of education. These commitments and action points aim to accelerate progress towards achieving Sustainable Development Goals.

know more**

EdWG Brochure

The G20 Education Working Group's brochure serves a comprehensive overview of the Working Group's priorities and initiatives in the realm of global education. The brochure highlights key priority areas, and achievements of the group along with the glimpses of meetings, seminars, exhibitions and various other events organised as a part of the G20 meetings, with engaging visuals. It also provides insights into the group's commitment to fostering innovation in education and promoting equitable access to quality learning opportunities. Through this brochure, the G20 Education Working Group aims to effectively communicate its dedication to shaping a brighter and more equitable future through education.

EdWG Report

The report provides a comprehensive overview of the policies and programs of the G20 member and invited countries with a keen focus on governance implications. It analyses the underlying challenges for all the four priority areas and identifies opportunities for bringing transformative reforms. The report facilitates knowledge exchange and aims to establish a unified educational agenda for discussions and actions. Valuable insights from lessons learned and promising practices are shared, providing a clear trajectory for future actions and developments.

know more**

EdWG Compendium

It showcases 150 flagship policies and programmes of G20 members and invited countries in all the priority areas. These policies and programmes represent promising practices that could serve as a resource for countries to learn from each other's experiences and adopt effective educational practices.

EdWG Issue Note

The issue note outlines the importance of education in a rapidly changing world. It emphasises the role of education in development, empowerment, and achieving Sustainable Development Goal 4 (SDG-4). The document discusses past policy approaches, challenges, and innovative solutions in education, and it presents four priority issues for consideration: foundational literacy and numeracy, inclusive tech-enabled learning, lifelong learning in the context of future work, and strengthening research and innovation. These priorities aim to advance the SDGs, leveraging digital and green transitions in education. The document provides a comprehensive framework for education policies and aligns these with broader sustainable development agendas.
