

1. Provide the information regarding LTC rules of IIT Institutes. I am providing a case of LTC according to that:

A female staff is working on the post of Junior Assistant in IIT system. She is availing LTC and travelling from Delhi to Mumbai with her 17 month baby. She is admissible for 3rd AC train ticket fare as mentioned as per rule of LTC in IIT system. During that particular journey time the Train ticket fare was Rs. 1600 for a lady passenger and Rs. 1600 for baby fare of full seat reservation. But she travels from flight (fare is Rs. 5000 of lady and Rs. 1200 of baby child) rather than train due to single mother traveller. In this situation how much amount will refunded by IIT system LTC rule.

A. Please provide me the information the baby travels via flight rather than train with mother in this condition the fare of flight will reimburse or not? If reimburse then full fare of flight will reimburse or reimbursement will be according to train fare for baby passenger?

B. Please provide me the information how much fare reimburse if mother travels from flight with her baby rather than train? According to the above case.

C. Please provide me information a baby (Under 2 year) can avail full seat in train of 3rd AC train ticket fare or not?

2. Provide me full LTC rule of IIT Institutes. What income should be of parents of a Junior Assistant post cadre lady? Is a private limited company (like CEAT) retired father can avail LTC? Monthly pension of the father is under Rs. 4000 per month. Please clearly provide the information regarding monthly income of a Junior Assistant post cadre of IIT system parents who can avail LTC?
