Foreword

The release of Fourth Report on the All India Survey on Higher Education (AISHE) will provide a wealth of extensive data on the higher education sector and provide decision makers and stakeholders with an opportunity to make informed decisions and plans. The Report will bring about a better understanding of the present scenario in the Higher Education system in the country. It will also provide useful information upon which the Government would be able to plan future investments in the field. I extend my congratulations to the Institutions of Higher Education, the Regulatory Bodies and the State Governments for their enthusiastic participation in this Survey. I would also like to appreciate the work put in by the Statistics Division of the Ministry of Human Resource Development and National Informatics Centre in making the Survey a success.

Preface

The Report of the All India Survey on Higher Education identifies and captures various aspects of all the institutions of Higher Education in the country. The idea behind this Survey and the resulting document is to prepare a sound database on the largely diverse system of Higher Education in the country. The Survey compiles and manages the statistics submitted directly online by the respondent institutions. The report brings out the official data collected on a large number of parameters from the Universities, Colleges and Stand Alone Institutions, in all sectors of Higher Education. The Report also holds an immediate significance as it creates awareness of the present status of Higher Education system and its growth.

The Survey is a step towards gathering relevant statistics that could guide Governments of States and the Central Government in devising future policies. After completing the first year of the survey successfully, the AISHE has become the annual exercise of data collection on higher education. During 2013-14, 676 Universities, 27916 Colleges and 5897 Stand Alone Institutions have uploaded the proforma on the web portal, specially designed by the National Informatics Centre. This survey is unique in the sense that the entire effort has been voluntary, based on motivation of respondents; and without any statutory mandate in place for collecting information of this nature. The simultaneous input of data by the respondents so far has given the best ever information on Indian Higher Education across sectors.

I extend my gratitude to all the respondent Institutions, especially Universities that have played a key role in providing data as well as in facilitating data uploading from colleges, which are academically associated with them. I am also thankful to the Regulatory Authorities - University Grants Commission, All India Council of Technical Education, Medical Council of India, Indian Nursing Council, Indian Council of Agricultural Research etc. and the State Governments. Their active participation in the Survey, right from facilitating the preparatory work to sensitizing respondents to the collection of statistics, is appreciated. A work of this nature would not have been possible without the formidable technical support from the NIC, which has dedicated several teams of experts for looking after the technical aspects of the Survey.

CHAPTER I – INTRODUCTION

All India Survey on Higher Education (AISHE) was initiated in 2011 during which data for the year 2010-11 was collected. The survey was utmost necessary as none of the source of data on Higher education was giving complete picture of higher education in the country. Also, there were many important parameters on which data is required for policy making but either no data was available or incomplete data was available. For the first time all the major Stakeholders in Higher Education such as University Grants Commissions, All India Council for Technical Education, Medical Council of India as well as State Governments participated in the data collection exercise. The entire survey was conducted through electronic mode and a dedicated portal http://aishe.gov.in was developed for the purpose, thus making the exercise completely paperless. The survey covered all the Institutions in the country engaged in imparting the higher education. Data is being collected on several parameters such as teachers, student enrolment, programmes, examination results, education finance, infrastructure etc. Indicators of educational development such as Institution Density, Gross Enrolment Ratio, Pupil Teacher Ratio, Gender Parity Index etc. are calculated from the data collected through AISHE. These are useful in making informed policy decisions and research for development of education sector.

1.1 Steering Committee & Working Group: The XII Plan categorically highlighted the need for a strong current and comprehensive data for evidence-based policy making and effective planning. The Plan document also took note of the All India Survey on Higher Education initiated by the Ministry of Human Resource Development and indicated that it can provide useful insights and can be the first step towards creating a comprehensive higher education data management system. Keeping this in view, a new plan scheme Higher Education Statistics & Public Information System (HESPIS) has been approved in XII Five Year Plan. With a view to ensure coordinated approach to all these efforts, particularly data collection efforts and benefit from synergy in such efforts, a Steering Committee for Higher Education Statistics & Public Information System has also been constituted under the chairmanship of Secretary (Higher Education), MHRD and different stake-holders as members. The notification on constitution of the **Steering Committee** and its Terms of Reference is given at Annexure-1.

A working Group has also been constituted under the chairmanship of Joint Secretary (Higher Education), MHRD to provide Technical Guidance for the proper conduct of the survey. The Working Group functions under the ambit of Steering Committee. The

notification on constitution of the **Working Group** and its Terms of Reference is given at Annexure-2.

1.2   Identification of Institutions for Coverage–The Institutions have been classified in following 3 broad categories

- University & University Level Institutions i.e. the Institutions which are empowered to award degree under some Act of Parliament or State Legislature.
- Colleges/Institutions which are not empowered to provide degree in its own name and therefore are affiliated/recognised with Universities.
- Stand-alone institutions (not affiliated with Universities) which are not empowered to provide degree and therefore run Diploma Level Programmes. During the survey, 5 types of such Institutions have been covered. These are, (i) Technical such as Polytechnics & (ii) Post Graduate Diploma in Management recognised by AICTE (iii) Teacher Training such as District Institute of Education & Training recognized by National Council for Teacher Education (iv) Nursing Institutes recognized by Indian Nursing Council and (v) Institutes directly under the control of various Central Ministries.

1.3   Reference Period for AISHE 2013-14: Reference date for filling up the Data Capture Formats is 30th September 2013. The number of institutions, teachers and students has been recorded on the basis of their actual number as on 30th September 2013. Information in respect of Examination Result has been collected for the students passed out/awarded degree on or before 30th December 2013 for the academic year 2012-13. Financial Information has been recorded for the financial year i.e. 1st April 2013 to 31st March 2014.

1.4   Formulation of Concepts & Definition and Instruction Manual: All the terms generally used in higher education such as University, college, programme, discipline, faculty, department have been clearly defined in the instruction manual, which also includes item-wise instructions to fill the forms. Concepts and Definitions used in the survey are given at Annexure 3.

1.5   List of Higher Education Institutions: During 2010-11 the lists of all the Universities and Stand-alone Institutions have been prepared by adopting the following method:

- Consulting the websites of the State Government Departments, Ministries and Institutions.
- Consulting all the Central Ministries, Councils and State Governments for providing the list of Institutions under their control.

Different colleges are regulated with different regulatory bodies. There are some colleges whose programmes are recognised by more than one regulatory body. To avoid duplication or omission, University was identified as best source to prepare the list of colleges. Thus, College list was dynamically generated through University during the AISHE 2010-11.

From 2011-12, following mechanism was adopted to update the list
.   List of Universities through State Governments, Central Ministries, UGC and self disclosure by the Universities, which is to be verified by the Act of the University.
.   List of Colleges through Universities
.   List of Stand Alone Institutions through respective Councils, State Governments and Central Ministries

An online module has been developed for this purpose. Apart from addition and deletion, module has been developed to affiliate and de-affiliate colleges which maintain the identity of the college even after shifting from one University to other. A provision has also been made for those colleges which are upgraded to University so that there is always a backward linkage.

1.6   Partner Agencies – Statistics Division of MHRD was involved in providing technical support, which includes preparation of DCF, providing training in workshops, assisting National Informatics Centre (NIC) in software development etc. The software support was provided by NIC. Several regulatory authorities also took part by instructing their institutions for providing information in the survey.

Nodal officer has also been appointed in each State to coordinate the survey work. Most of the States have nominated Higher/ Technical Education department as Nodal department/ agency for coordinating the Survey. However, Chandigarh, Jharkhand, Kerala, Odisha, and Puducherry have engaged agencies/ Department other than Higher/ Technical Education Department. Along with State nodal officers, 3 more nodal officers, one each from Directorate of Technical Education (for Polytechnics), SCERT (for DIETs and Teacher Training diploma level institutions) and State Nursing Council have also been appointed to co-ordinate with Standalone Institutions. The

names of these State Nodal officers and University Nodal Officers (Affiliating) are shown at Annexure-4 and Annexure-5

1.7 Mode of Survey - A dedicated portal (http://aishe.gov.in) has been developed with the help of National Informatics Centre (NIC) for collection & compilation of the data. All the Institutions need to register on the portal for accessing the portal and uploading its data. The registrations of the Institutions are approved by appropriate level of officers at State/ Central Level and in case of colleges, by University nodal Officers. The e-version of DCF has been prepared in such a manner that it expands according to the structure/size (Number of Faculties/ Departments, Programmes, etc.) of the Institution. The Data Capture Format is downloaded from the portal, filled off-line and then filled-in DCF is uploaded, which has made it completely paper-less. DCF has been designed in such a manner that no manual aggregation is required at any level. No investigator is sent to the Institution to collect the data. In fact the nodal officers appointed by the Institutions themselves are the Investigator and they are responsible for filling up the DCF and uploading it on the portal. This eliminates the duplication of effort in data entry once form is uploaded by the Institution. Once data is uploaded by the Institutions, data compilation is done automatically in pre-designed formats. One unique feature is that the filled in DCFs are always available on the portal, which can be seen by the Institutions and higher level authorities and can be modified, whenever required, till survey is closed.

1.8 Duration of the Survey AISHE 2013-14 –The survey started in the month of June, 2014 and continued till December, 2015. In between Survey for the year 2014-15 was also launched on 22nd October, 2014. One of the special features is that data, such as basic details, name of faculties/departments and list of programmes can be pre-filled in future survey DCF from the previous filled in DCF with an option to edit pre-filled data.

1.9 Institutions Uploaded Data under Survey: - In AISHE 2013-14, 676 Universities, 27916 Colleges and 5897 Stand Alone Institution have uploaded the form on the portal. However, in addition to the actual response received during AISHE 2013-14, data has been pooled from the AISHE 2011-12 and 2012-13 for the name existed in 2013-14 but did not submitted the data. So the results are actually based on response from a larger number of institutions than the actual response of 2013-14 survey which can be seen from the following Table.

	University	Colleges	Standalone
Total	723	36634	11664
Response in AISHE 2013-14	676 (93%)	27916 (76%)	5897 (51%)

List of Universities, which did not upload the data during 2013-14 is also shown at Annexure 6.

2. 1.3 Stand Alone Institution

Stand Alone Institutions can be categorised into 5 categories as described below:

Type I- Diploma Level Technical Institutes such as Polytechnics, which are generally recognised by All India Council for Technical Education (AICTE) and administered by State Directorate of Technical Education.

Type II- Diploma Level Teacher Training Institutes including District Institute of Education & Training (DIETs) recognised by National Council for Teacher Education (NCTE) and generally administered by State Council for Education Research & Training (SCERT).

Type III- Diploma Level Nursing Institutes recognised by Indian Nursing Council (INC) and generally administered by State Nursing Council/Boards.

Type IV- PGDM (Post Graduate Diploma in Management) Institutes recognised by AICTE

Type V- Institutes directly under the control of various Central Ministries

Not only among States number of these Institutions varies largely, their responses are also much varied. Out of 11664 Stand Alone Institutions, 6860 (including pooled data from 2011-12 and 2012-13) have uploaded the data during 2013-14 survey. Type wise details are as under

In Gujarat and Chhattisgarh polytechnics have been affiliated with the University and therefore they have not been counted as Stand-Alone Institution. The Polytechnics in these 2 States have been included in the Colleges.

Figure 5: Share of Private sector in different type of Stand Alone Institutions

Stand Alone Institutions are mainly run by Private sector (76%); Private unaided – 66% & Private aided – 10%. Only 24% Institutions are in Government sector. 54% Institutions are located in Rural Area.
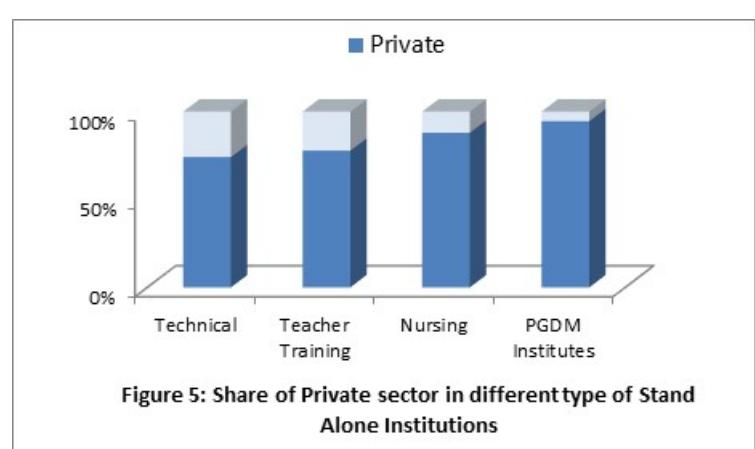

2.2   STUDENT ENROLMENT

2.2.1   Level-wise Enrolment

Total Student enrolment has been classified in 8 levels viz – Ph.D., M.Phil., Post Graduate, Under Graduate, PG Diploma, Diploma, Certificate and Integrated.

Percentage share of student enrolment in these levels are shown in Figure 6. State-wise and level-wise estimated student enrolment is given in Table 6. State-wise student enrolment through regular mode at various level is given in Table 6(a).

The highest number of students are seen enrolled at Under

Figure 6: Student Enrolment by Levels
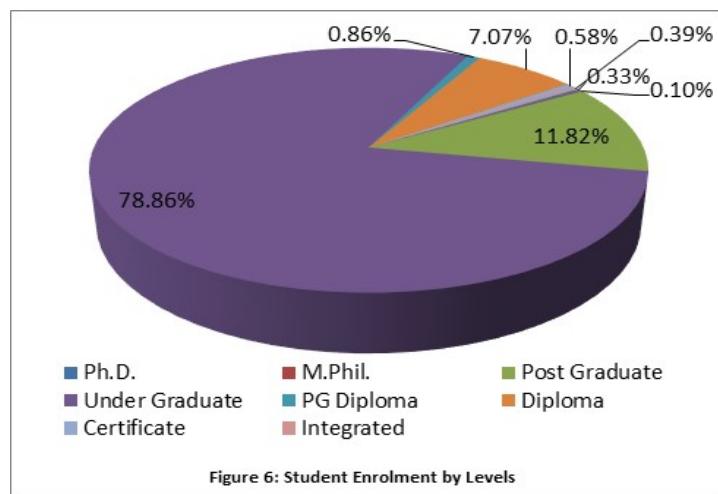

Graduate level across India. Out of the total 3,23,36,234 students, a vast majority of 2,55,00,325 students are enrolled in Under Graduate that is a sweeping 78.9%. On the other hand, second to Under Graduate, 11.82% students are enrolled in Post Graduation which is approximately 38.2 lakh students. There are 3, 456 students enrolled in Integrated Ph.D. in addition to 107890 students enrolled at Ph.D. Level. The student enrolment from UG going higher to PG is thus decreasing steeply. There is a small share of 7.07% students enrolled at Diploma level in India that amounts to around 22.9 lakh students and out of this majority students enrolled in Teacher Training, Nursing and Technical. However, a small share of only 1.9 lakh and 2.8 lakh students are enrolled each at Certificate and PG Diploma levels respectively, constituting approx. 0.6% and 0.9% of the total share at each level. slightly different with Maharashtra (7781) at top followed by Uttar Pradesh (6361), Karnataka (5279), Tamil Nadu (3744), Madhya Pradesh (3595), Rajasthan (3538) and Andhra Pradesh (3466). It is interesting to note that these 6 States with highest student enrolment constitute nearly 53.9% of the total student enrolment in India. Rest of the 30 States (including UTs) have only 46.1% of the total student enrolment. So inevitably, the female students in these 6 States is almost 54.3% of the total female students enrolled and male students enrolled in these 6 States contributes to 53.5% of the total male students across India.

Uttar Pradesh, with its highest student enrolment in India, has 51% male and 49% female students. male teachers. Looking at female per 100 male teachers, there are 45 teachers at University level, 67 and 62 female teachers per 100 male teachers at college and Stand Alone Institutions respectively.

In different types of Stand Alone Institutions, the number of female teachers per 100 male teachers is varying significantly as there are only 43 female teachers per 100 male

Figure 26: Female per 100 Male Teachers in Standalone Institutions
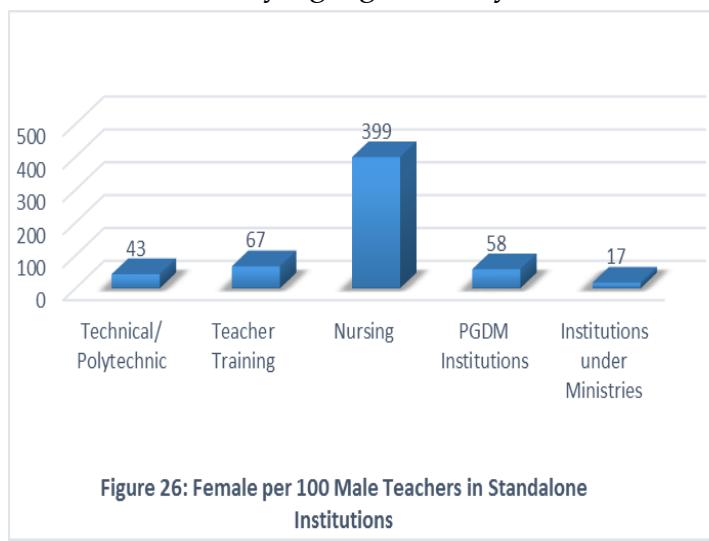

teachers in Technical/ Polytechnic Institutions, 67 in Teacher Training, 58 in PGDM Institutions and 17 in Institutions under Ministries which is the lowest. Contrast to this, nursing courses has 399 female teachers per 100 male teachers which is the highest among all the types.

2.4.1   Pupil Teacher Ratio

Taking into account all types of Institutions (University, Colleges & Stand-Alone Institution), Pupil Teacher Ratio (PTR) at All India level comes out to be 24 and 21 if only regular enrolment is considered. In case of University and its Colleges PTR is slightly higher 25 and 21 respectively. It has been observed that, PTR in University

Pupil Teacher Ratio (PTR) in Universities and Colleges is 25

along with its Constituent Unit is significantly low at 16 in case of Regular Mode. However, for Distance Enrolment PTR is 41, which is very high. Looking at the State-

wise variation, it is seen that there are a large variation among States. PTR is more than 50 in Bihar and Jharkhand. Among top 6 States in terms of Enrolment, Uttar Pradesh has the highest PTR 39 followed by Maharashtra 23. State-wise details of PTR are given in Table 25.

2.5. NON-TEACHING STAFF

The non-teaching posts in responding Institutions are 9,84,534 and are divided into four groups – A, B, C and D. The share of Group-C is the highest with 40%, while Group-D seconds it with 29%.Group-A and Group-B comprise of 13 and 17per cent non-teaching posts respectively (Figure 27).

Figure 27: Distribution of Non-Teaching Staff according to Levels

Looking at the male and female distribution in these non-teaching posts as in Figure 28, here we have a picture similar to that of teaching staff and student enrolment in India as the total male non-teaching staff is more than female staff, which is 72% as opposed to merely 28% female staff.

In group-wise posts, the non-teaching staffs have more male members in each group as shown in Figure 28. There are 68% male and 32% female in Group A, while in Group B, 64% are male staff members and 36% female staff members. In Group C the highest male share is 73% as against 27% females, while in Group D there are 76% male staff.
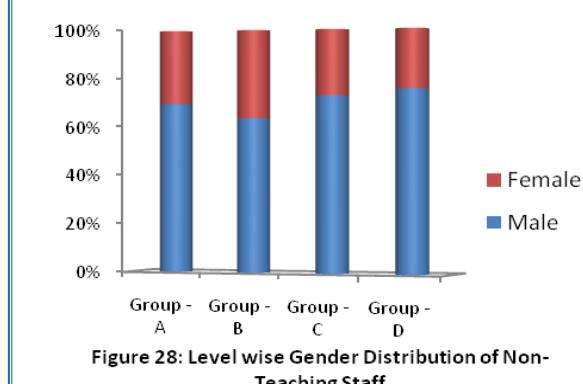

Figure 28: Level wise Gender Distribution of Non-Teaching Staff

In Bihar the male staff share is the highest with 88% and only 12% females, while Uttar Pradesh is close second with 85% male staff and 15% female staff. Jharkhand also has a higher share of male staff with 84% and 16% females. Odisha and Uttrakhand come fourth in this ratio share with 83% male and 17% female staff posts while West Bengal have 82% male and 18% female staff share . This same picture is reflected in the group-wise break up of data. State-wise number of non-teaching staff in different groups in responding Institutions is given in Table 23.

In regard to Social Category, 55.24% non-teaching staffs are from General Category, 23.46% are from OBC, 11.87% from Scheduled Caste and 3.5% are from Scheduled Tribe. State-wise number of non-teaching staff in different categories given in Table 24.
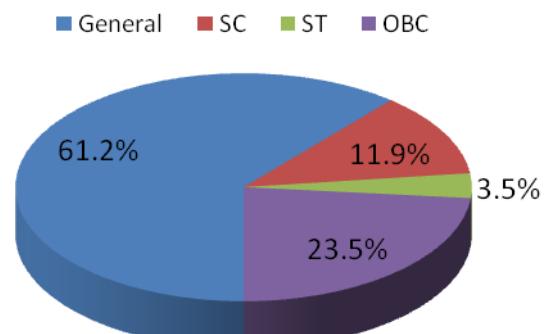

Figure 29: Category-wise Distribution of Non-Teaching Staff
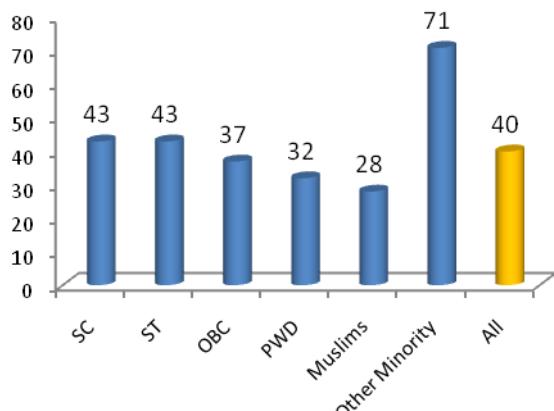

Figure 30: Female per 100 Male among Non-Teaching staff in various categories

The average number of females per 100 male non-teaching staff is approx. 40.The highest number of females is 71 from Other Minority Group and Muslims has the lowest number of females per 100 male non-teaching staff with 28 females. SC has 42, ST has 43, OBC has 37 and PWD has 32 females, per 100 male non teaching staff.

2.6. OUT-TURN/ EXAMINATION RESULT

2.6.1 Level-wise Out-Turn (Based on Actual Response)

Percentage share of student enrolment in different levels are shown in Figure 31. State-wise and level-wise Out-Turn is given in Table 33. As per the response received in the survey total number of students awarded Ph.D level degree during 2013 is 23,861 with 14,223 males and 9638 females. Uttar Pradesh has maximum number (3,311) of Students who

Figure 31: Level-wise OutTurn

were awarded Ph.D. level degree followed by Tamil Nadu (2,995) and Rajasthan

(2,056). 59.26 lakh students have been graduated and 13.32 lakh students passed Post-Graduation level.

2.6.2   Programme-wise Out-Turn *(Based on Actual Response)*

B.A. degree has been awarded to 21.05 lakh students which are the highest among all Programmes with the percentage of male as 44%. B.Com. is the second highest with 8.10 lakh students followed by B.Sc. (7.55 Lakh). B.Ed. and B.Tech., degree is awarded to 4.95 lakhs and 4.13 lakhs students respectively. 33151 students have been awarded with M.B.B.S. degree and out of which 16255 are females. At Post Graduate level number of M.A. pass students is maximum (4.94 lakh) followed by M.Sc. (2.10 lakhs) and M.B.A. (2.07 lakhs). About 58,422 students have been awarded M.Tech/ M.E. degree in which share of male student is more than 64%. Programme-wise out-turn on the basis of actual response is given in Table 34.

2.6.3   Discipline-wise Out-Turn *(Based on Actual Response)*

The total number of pass-outs at Undergraduate Level in major discipline/subject based on actual response is given in Table 35. The highest number of students has been graduated in Arts/ Humanities/ Social Sciences courses. The total number of students passed-out in this are 23.06 lakh out of

Figure 32: Discipline-wise OutTurn at Under Graduate Level

which 45% are males and 55% are females. Commerce is second major stream with 8.10 lakh students passed-out followed by Engineering and Technology with 7.82 lakh students. 7.54 lakh students have been graduated in Science stream. In Medical Science stream, there are 1.84 lakh students who have been awarded Under Graduate degree.

Figure 33: Discipline-wise OutTurn at Post Graduate Level
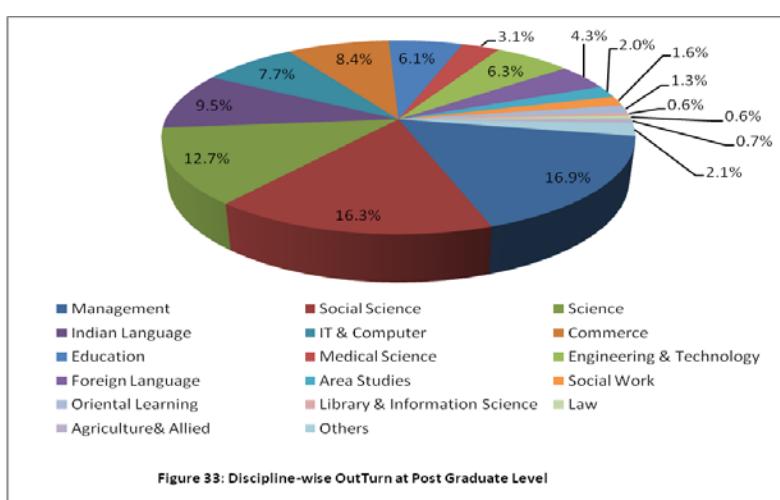

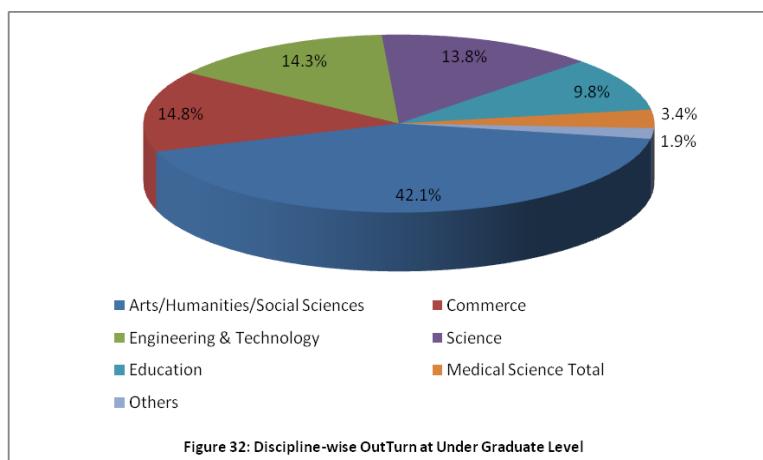

At Ph.D. level, maximum number of students out-turn is in Science stream (5822) followed by Social Science (3721). On the other hand at PG level maximum students out-turn is observed in Management stream (2.25 lakh) and Social Science comes at number two with 2.17 lakhs students. In Engineering & Technology and Medical Science stream out-turns are 84048 and 40970 students respectively. It is interesting to note here that at Under Graduate level ratio between these two streams is 4:1 whereas at PG level it becomes 2:1. Enrolment in major discipline/subject at Ph.D., M.Phil. and PG level based on actual response is given in Table 36.

2.7. ENROLMENT IN DIFFERENT TYPES OF UNIVERSITIES

There are 12 types of universities and the level wise enrolment in each type of universities, teaching departments and constituent universities/off-campus centres are given in Table 26. Total numbers of students enrolled are 63.8 lakhs. In State Public University share of Ph.D. students is large (32365) followed by Central University (19219). Share of female students is lowest for State Private Open University (22) followed by Institutes under State Legislature Act (1424) whereas the share is highest in State Public University. Share of female students in Central University and State Public Universities are 46.27% for each.

Figure 35: Level-wise Enrolment in Different Type of University
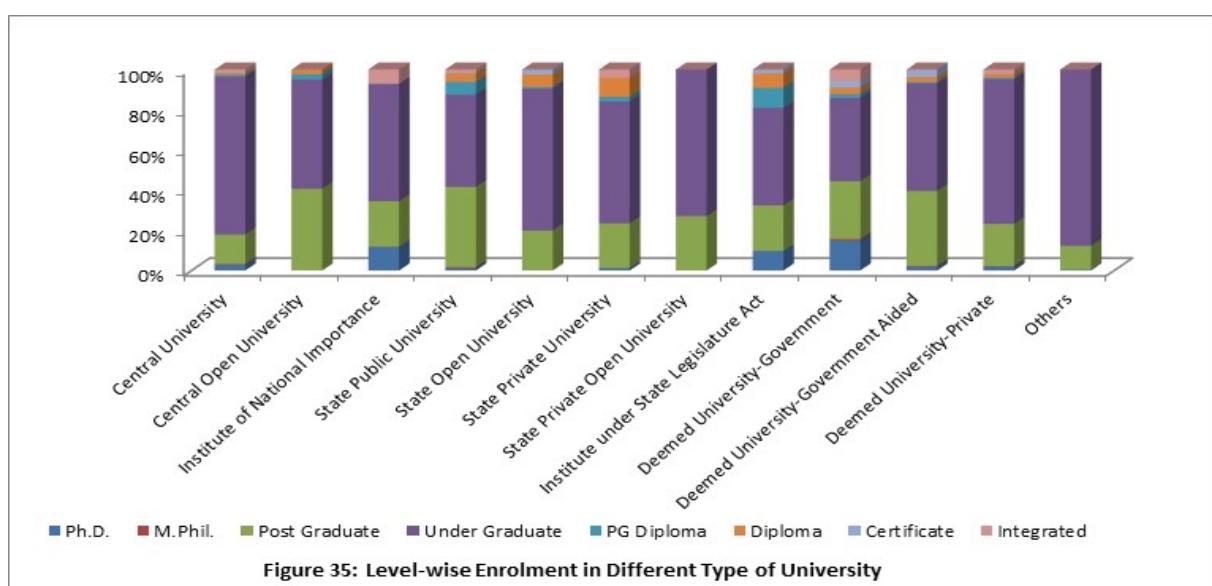

Level-wise enrolment in affiliated and constituent colleges of Central and State Universities are given in Table 26B. Categories wise enrolment in various types of universities is given in Table 27. In Table 28 enrolment in PWD and minority enrolment in various types of universities are given.

Figure 36: Gender Distribution in Enrolment in Different Type of University

There are wide variations in representations of different categories in various types of universities.

There are 1.57 lakh teachers in various types of University/Teaching departments and their constituent units/off-campus universities, out of them 50.4thousand are female. Among various types of universities, Private universities in general have larger proportion of female teachers. In State Public universities, the proportion of undergraduate enrolment is less than 50% whereas in the Central universities it is more than 75%.

Table 39 shows the State-wise enrolment in different type of University Teaching departments and their constituent units/off-campus universities, which is around 63.8 lakh with contribution of male as 36.6 lakh (57%) and female with 27.2 lakh (43%).

2.8 INFRASTRUCTURES FOR INSTITUTION

Box 7 shows the percentage of higher education institutions having various type of infrastructure, such as Playground, Library, Laboratory, Conference Hall, etc. available with them. 85% of Universities, 90% of Colleges and 92% of Standalone institutions are maintaining playground. 94% of Universities, 96% Colleges having library facility, whereas it is 98% for standalone institutions.

Percentage of university, college and standalone institutions having laboratory are 85%, 77% and 93% respectively. In addition to this, Health Center, Computer Center, Auditorium, Conference Hall etc. are also in place with the Universities, Colleges and Standalone Institutions.

CHAPTER 3 – ESTIMATION METHODOLOGY

Three Categories of Higher Educational Institutions, namely University, College, Stand-Alone Institution are identified and surveyed. Since there is large variation in terms of structure, programme, student enrolment etc., among universities and data from 97% of these have been collected, no estimation has been done in case of University. List of Stand-Alone Institutions as already indicated is not firm and States are revising it frequently. Keeping this in view no estimation has been done for such Institutions also. Estimation has been done only in case of Colleges for student Enrolment and Teachers at All India level and state level by adopting sampling technique assuring the sufficiency of sample in different stratum. For student enrolment estimation, level of programme has been used a stratum while in case of teaching staff post has been used as stratum. Methodology for estimation has been described in subsequent sections.

The most important and phenomenal task for the survey during 2010-11 was to compile the list of Colleges. There are numerous players in this field, which were not easily identifiable. An exhaustive list of colleges in the country was not available and therefore university was identified as best source to prepare the list of colleges. Thus, College list was dynamically generated through University during 2010-11. Software was designed in such a manner that as soon as the university uploads its form on the server, college list was automatically populated in the data-base. All the affiliating University except the 7 have uploaded the data in year 2010-2011 and therefore almost complete list of colleges were available. During 2011-12 and onwards all the remaining affiliating Universities were also contacted and comprehensive list of colleges are prepared through Institution Management Module of the portal. Presently, in order to update the college list, request for addition of colleges (new/remaining) is received from the concerned officer and added in AISHE college list based on approval of UNO/SNO.

> College means any Institution, whether known as such or by any other name which provides for a course of study for obtaining any qualification from a university and which, in accordance with the rules and regulations of such university, is recognised as competent to provide for such course of study and present students undergoing such course of study for the examination for the award of such qualification. These are the institutions established or maintained by or admitted to the privileges of the University.
>
> Colleges are generally of two types:
> (i) University/Constituent College maintained by the University
> (ii) Affiliated College

In addition to the Affiliated and Constituent colleges, for Off-Campus Centres/ PG Centres and for Recognised Centres of Universities, DCF-II (the format in which the data was required to be submitted) was available to be filled-in. All the Constituent Colleges, the Affiliated Colleges and the Off-Campus Centres were required to fill DCF-II. Constituent units of University, primarily of Private and Deemed Universities, which are integral part of University, have also been listed by these Universities as Constituent College. However, DCF-II for such units were not required to be filled. For Recognised Centres, in normal cases, DCF-II have not been filled, but in a few cases where these are independent institutions, DCF-II have been filled.

> A Off-Campus Centre/ PG Centre is a centre of the University established by it, outside the main campus (within or outside the state) operated and maintained as its constituent unit, having the University's compliment of facilities, faculty and staff. A Recognised Centre is an institution attached with the University for the purpose of awarding degree in respect of programmes being run in these institutions. e.g. Army Cadet College Wing, Indian Military Academy, Dehradun is not affiliated with any University but the degree in respect of Programmes run in the institute are awarded by Jawaharlal Nehru

Thus, there are four types of College/Institution, for which DCF-II have been filled:

1. *Affiliated College (35637)*
2. *Constituent College (1405)*
3. *PG and off. Campus Centre (267)*
4. *Recognised Centre (2214)*

In bracket, numbers of such institutions during AISHE 2013-14 are given. State-wise number of colleges of different types is given in Table 37.

Although intended to cover the entire population, approximately 60% colleges' data could be collected and thus to have an idea of total College's enrolment and number of Teachers, estimation adopting proper sampling methodology, was required. Constituent Colleges are mainly located in Bihar, Jharkhand and Maharashtra and most of them have uploaded the data. Therefore, enrolment and teachers for Constituent Colleges including constituent units of University has not been estimated   For PG/Off-Campus Centres and for Recognised Centres also no estimation has been made.

Thus for only affiliated colleges, enrolment and number of teachers has been estimated based on the Stratified Sampling technique. Post-Stratification has been done, after the survey for the year 2013-2014 is closed.

Affiliated Colleges has been divided into two strata; one is Large College and other Small college. Large Colleges are those, which have enrolment of 3000 or more and the remaining are Small colleges. In absence of a priori information, it has been assumed

that all large colleges have uploaded the data i.e. in the population the number of large colleges is equal to the number of such colleges that have uploaded DCF-II. Thus, we have avoided over estimation of enrolment of colleges. Average enrolment at a particular Level for the colleges of a particular University has been taken to estimate the enrolment of all colleges of that University. Further, for those Universities, where affiliated colleges' response was less than 10%, state level averages have been used. This method was used as within a university because there is homogeneity in nature of colleges. The Estimation formula is given at Annexure-7.

Based on the methodology explained above, state-wise total enrolment in colleges has been done only for Under Graduate and Post Graduate level, given in Table 10. Actual enrolment in case of Affiliated Colleges, Constituent Colleges, PG/Off-Campus Centres and Recognised Centres are shown in Table 8.

For estimating number of Teachers, only those colleges have been taken into account for which enrolment has been estimated i.e. small colleges (enrolment<3000). The estimation has been done for the post of Reader/ Associate Professor and Lecturer/ Assistant Professor. Average number of teachers at these two levels for the colleges of a particular University has been taken to estimate the number of teachers of all colleges of that University. Further, for those Universities, where affiliated colleges' response was less than 10%, state level averages have been used.

Estimation Formula

Estimated enrolment at l^th Level for k^th Type of college in i^th State,

$$E_{ikl} = \sum_{j=1}^{u_i} \frac{N_{ijk}}{n_{ijk}} \sum_{c=1}^{n_{ijk}} e_{ijklc} \text{ , i = 1,2,..........., 35}$$

where, e_{ijklc} = Enrolment in c^th College at l^th Level in k^th Type in j^th University in i^th State,

n_{ijk} = Number of responding colleges of kth Type in j^th University in i^th State,

N_{ijk} = Total number of colleges of kth Type in j^th University in i^th State,

u_i = number of University in i^th State,

k = 1, 2, 3 & 4 ;   1, 2, 3 & 4 stands for Affiliated college, Constituent college, PG/Off-Campus Centre & Recognised Centre respectively,

For, k=2, 3, 4, $n_{ijk} = N_{ijk}$

l = 1, 2, ... 8 ;   1, 2, 3, 4, 5, 6, 7 & 8 stands for Ph.D., M.Phil, Post Graduate, Under Graduate, PG Diploma, Diploma, Certificate & Integrated respectively.

Total Estimated enrolment at l^th Level

$$E_l = \sum_{i=1}^{35} \sum_{k=1}^{4} E_{ikl}$$

Estimation to be made for those Levels, for which sufficient response has been received. Where, Coefficient of Variation is high and n_{ijk} is small, no estimation is proposed.

When response within University is less than 10%,   (n_{ijk}/N_{ijk} < 0.10), the following assumption is made:

$$\frac{1}{n_{ijk}} \sum_{c=1}^{n_{ijk}} e_{ijklc} = \frac{1}{\sum_{j=1}^{u_i} n_{ijk}} \sum_{j=1}^{u_i} \sum_{c=1}^{n_{ijk}} e_{ijklc}$$
