STATISTICS OF HIGHER & TECHNICAL EDUCATION

2008-09

(AS ON 30TH SEPTEMBER, 2008)

**GOVERNMENT OF INDIA
MINISTRY OF HUMAN RESOURCE DEVELOPMENT
BUREAU OF PLANNING, MONITORING & STATISTICS
NEW DELHI
2012**

PREFACE

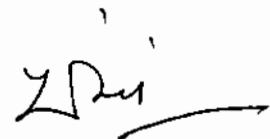

“Statistics of Higher & Technical Education” has been an annual Publication brought out by the Department of Higher Education, Ministry of Human Resource Development.

The “Statistics of Higher & Technical Education” contains statistical data on important educational indicators, different parameters of Higher and Technical Education and budgetary expenditure on this sector. The data on Higher and Technical Education covers information on all the levels from under Graduate to Doctorate level of Education, Distance Learning Education, Polytechnics, international students etc.

As far as possible, different indicators in respect of Schedule Castes and Schedule Tribes have also been given. Time series data on important parameters such as number of institutions and enrolment at the national level are provided in the Statements, the graphic presentation of data has also been given in the publication. An attempt has also been made to give a comparative picture of India in respect of various other countries. It is hoped that the present detailed information in the publication would be useful not only for educational planner, administrators and researchers but also for those concerned with education sector.

The sources of data for this publication are the State Governments/UTs, University Grants Commission (UGC), All India Council of Technical Education (AICTE), Distance Education Council, Director General of Employment and Training, UNESCO Institute of Statistics (UIS). I would like to thank the officers of the State/UTs, other data providers and also the officers and staff of the Planning, Monitoring and Statistics Bureau of this Department for their efforts in bringing out this Publication.

It is our constant endeavor to improve the coverage in this Publication as well as its presentation based on the feedback from the users of this Publication. Further, suggestions/comments, if any, for improving the publication are always welcome and may be sent to the Statistics Division in the Department.

(Dr. VIJAY P. GOEL)

Deputy Director General
Government of India

Ministry of Human Resource Development

*CONCEPTS
AND
DEFINITIONS*

Concepts and Definitions

Higher Education is defined as the education obtained after completing 12 years of schooling or equivalent and is of the duration of at least nine months (full time) or after completing 10 years of schooling and is of the duration of at least 3 years. The education may be of the nature of General, Vocational, Professional or Technical education.

Reference Date is 30th September 2008 for student's enrollment during the Academic year 2008-09, the period during which one year or two semesters or three trimester of a Programme is completed has been considered. The information on expenditure pertains to the Financial Year 2008-09 i.e. the period from 1st April 2008 to 31st March 2009.

Under the University Grants Commission (UGC) Act, 1956, "**University**" means a University established or incorporated by or under a Central Act, a Provincial Act or a State Act, and includes any such institution as may, in consultation with the University concerned, be recognized by the Commission in accordance with the regulations made in this behalf under this Act.

The following Universities are covered:

1. Central University - A university established or incorporated by a Central Act.
2. State University - A university established or incorporated by a Provincial Act or by a State Act.
3. Open University - A University which imparts education exclusively through distance education in any branch or branches of knowledge.
4. Private University - A university established through a State/ Central Act by a sponsoring body viz. a Society registered under the Societies Registration Act 1860, or any other corresponding law for the time being in force in a State or a Public Trust or a Company registered under Section 25 of the Companies Act, 1956.
5. Deemed University - An Institution Deemed to be University commonly known as Deemed University refers to a high-performing institute, which has been so declared by Central Government under Section 3 of the University Grants Commission (UGC) Act, 1956.
6. Institute of National Importance - An Institution established by Act of Parliament and declared as Institution of National Importance such as All Indian Institute of Technology (IIT), National Institute of Technology (NIT).
7. Institute Under State Legislature Act - An institution established or incorporated by a State Legislature Act.

Under Section 12A(1)(b), **College** means any Institution, whether known as such or by any other name which provides for a course of study for obtaining any qualification from a university and which, in accordance with the rules and regulations of such university, is recognised as competent to provide for such course of study and present students undergoing such course of study for the examination for the award of such qualification. These are the institutions established or maintained by, or admitted to the privileges of the University.

Programme is a course of study for which Degree or Certificate is awarded by the Institution. A Programme of study is the approved curriculum followed by an individual student such as B.A, M.A, MBA etc.

Levels of Programmes are as follows:

1. Under-Graduate - Programme after 10+2 and generally having the duration of 3/4/5 years, in General or Professional courses.
2. Post-Graduate - Programme after Graduation and generally having the duration of 2/3 years in General/Professional courses.
3. M.Phil - Programme after Post-Graduation and generally having the duration of 1/2 years and are pre-research course.
4. Ph.D - Programme after M.Phil or Post-Graduation and generally having the duration of 2/3/4/5 years.
5. Post Graduate Diploma - Programme generally after 10+2 or after Graduation in General and Professional courses and having duration of 1/2/3 years.
6. Post School Diploma - Programme generally after 10+2 in General and Professional courses and having duration of 1/2/3 years.

Distance or Correspondence Mode i.e. Non-Formal system of Higher Education is the system of imparting education through broadcasting, telecasting, internet, correspondence courses, seminars, contact programmes or the combination of any two or more such means of communication.

Student means a student of the Institution and includes any person who has enrolled himself/ herself for pursuing any programme of study conducted by the Institution. Foreign Student means those students who are citizens of a country other than India. Students' enrolment is total students on roll in a Programme as on 30th September 2007 during the academic year 2007-08.

Teacher is defined as a faculty/ staff assigned the professional activities of instructing pupils, providing knowledge and giving guidance in the subject area of studies in self contained classes or courses or in class room situations.

Gross Enrolment Ratio (GER) is the total enrolment in a specific level of education, regardless of age, expressed as a percentage of the eligible official age population

corresponding to the same level of education in a given academic year. It is calculated by dividing the number of students enrolled in a given level of education regardless of age by the population of the age-group which corresponds to the given level of education and multiplying the result by 100.

Gender Parity Index (GPI) is the ratio of the female to male values of GER. A GPI of 1 indicates parity between sexes.

Pupil-Teacher Ratio (PTR) is the average number of pupils (students) per teacher in a given academic year. It is calculated by dividing the total number of pupils enrolled by the number of teachers.

Methodology of Population Estimation in Age-Group 18-23

Source: POPULATION PROJECTIONS FOR INDIA AND STATES 2001-2026" published by RGI. It gives projected population for the years 2006, 2011, 2016 for single years of age from 5 to 18 and for age groups 15-19 & 20-24. For North Eastern States excluding Assam combined projections are available. Age/Age Group-wise projections are not available for Union Territories (UTs).

Method of Estimation:

1. All States except North Eastern States other than Assam and UTs –

Population for Age Group 18-23 = Population for Age Group 15-19 - Population for Age 15, 16 & 17 + 4/5*Population for Age 20-24. – (1)

Using above formula, Population has been projected for the year 2006. Actual Population for 2011 is used as it is now available. Population has been interpolated for the years 2007, 2008, 2009 & 2010, using Compound Annual Growth Rate (CAGR).

2. North Eastern (NE) States other than Assam –

Using formula (1), Combined Population has been projected for the year 2006 for NE States. Thereafter, it has been distributed among NE states using the ratio of 2001 Population in the age group 18-23 to get state-wise projected population for these States.

3. Union Territories (UTs) –

Total Projected population for each UT is available for the year 2006. Population in Age-Group 18-23 has been worked out using the ratio of 18-23 population out of total in 2001, in these States.

4. SCs/STs –

Ratio of the SC/ST in the age group 18-23 out of total in each State in 2001 is used to calculate 18-23 SC/ST Population for the years 2007, 2008.

An Overview

The search for knowledge has been the defining theme of the ancient civilizations in India. In the past, highly advanced institutions of learning situated in Nalanda, Taxila and Vikramshila flourished imparting education on a vast range of subjects where the spirit of inquiry was encouraged. Erudite treatises on a variety of subjects ranging from science to fine arts, mathematics to philosophy are living testimonies to the heights of learning and knowledge that developed in Ancient India. Under the British rule, however, education remained elitist catering to only the socially advantaged sections of society. The colonial period also saw the beginnings of the university system in India with Lord Macaulay's minutes forming the foundation of the philosophy behind the development of an English educational system. By 1923, there were 23 universities established across India. After independence, the Government of India realized that the economic and social progress would be contingent upon the spread of education across the country. Several initiatives were taken including the setting up of the University Grants Commission, an autonomous body for the development and maintenance of standards in higher education, and establishment of several other institutions of technical and scientific excellence.

The Constitution of India devolves responsibility for education upon the Central as well as the State Governments. The policy and action plan of higher education in independent India are largely based on two landmark reports called the University Education Commission (otherwise known as Radhakrishnan Commission) Report in 1948-49 as well as the Education Commission (also known as Kothari Commission) Report in 1964-66. In 1986, a National Policy on Education was enunciated to prepare the Indian education system for the 21st century. The National Policy on Education, as amended in 1992, stated that higher education provides people with an opportunity to reflect on the critical social, economic, cultural, moral and spiritual issues facing humanity and contributes to national development through dissemination of specialized knowledge and skills. Higher education is, therefore, a crucial factor for survival.

2. Access, Enrolment and Equity

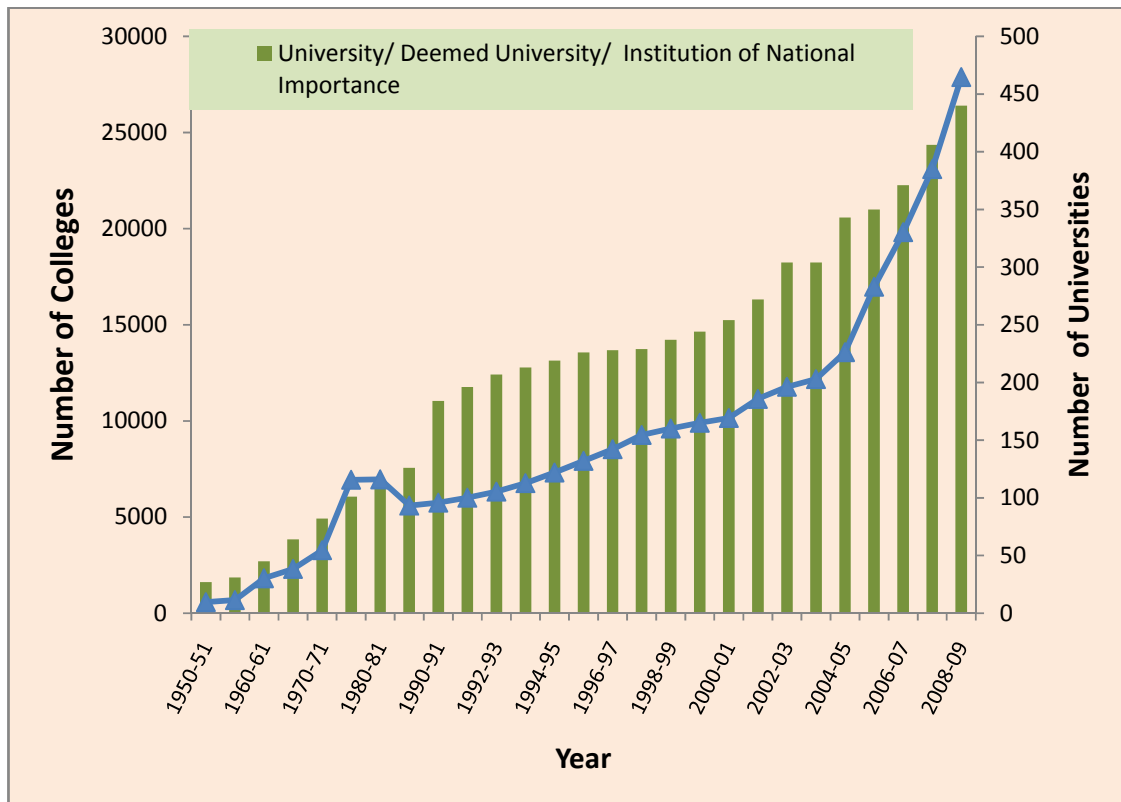

2.1 Progress in number of Institutions

The Higher Education in India has witnessed tremendous increase in the institutional capacity since independence. At the time of independence, 1947, the size of higher education system in terms of number of educational institutions and

teachers was meager but since that time there has been an exponential increase in three indicators of higher education, namely the number of educational institutions, teachers and students. The number of universities and University level Institutions has increased from 27 in 1950 to about 440 in 2008 indicating a sixteen-fold increase. There are now 28 Central Universities, 231 State Universities, 21

State Private Universities, 117 Deemed to be Universities, 38 Institutes of National Importance established through Central legislation and 5 established through State legislation. The number of colleges has increased from 578 in 1950 to 27882 in 2008 indicating a 48 fold increase. State-wise details are given in Table 1 and 2.

Figure 1: Growth of Higher Educational Institutions in India

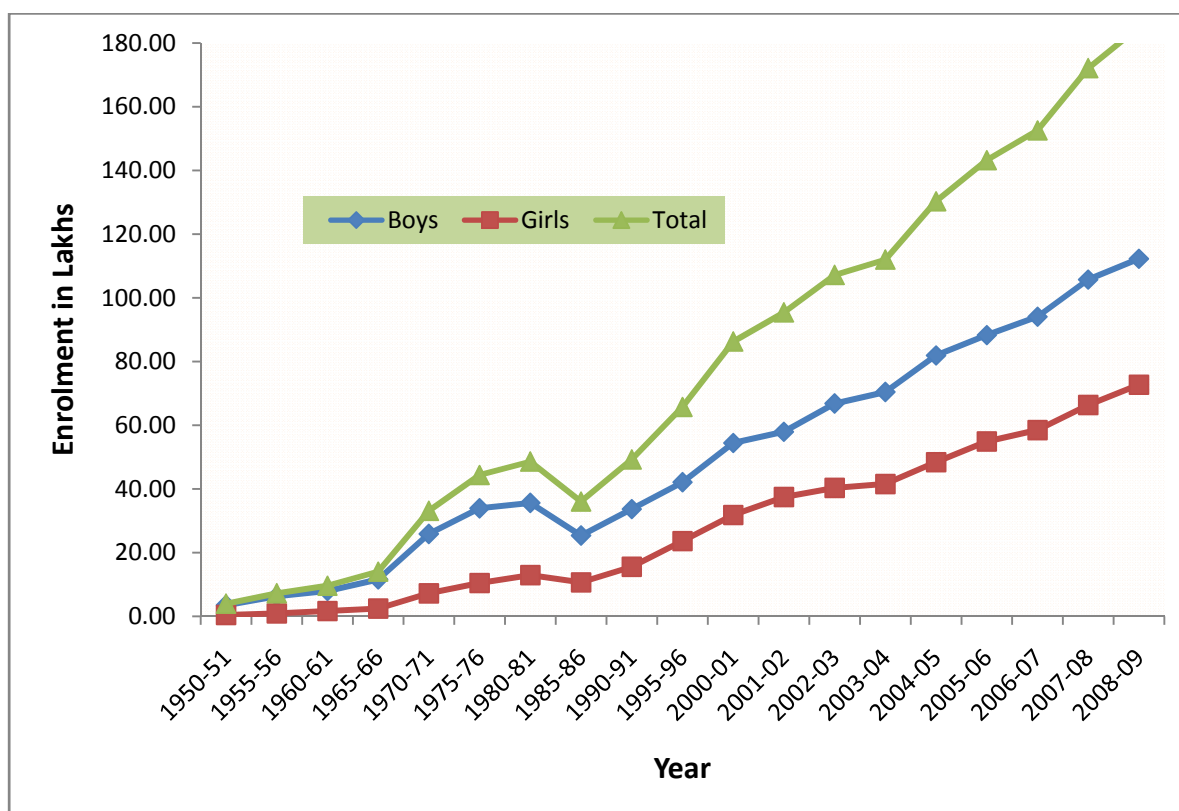

2.2 Growth in Enrolment

The total enrolment in the higher education system has increased from 0.40 million in 1950-51 to 4.92 million in 1990-91. From the level of 4.92 million in 1990-91, it increased by about 3.5 times to 18.5 million in 2008-09 (Figure 2). During the period 1950-51 to 2007-08, total enrolment at higher education level has increased at

compound annual growth rate of 6.85%. This growth is of the order of 6.16% for boys while 9.17% for girls.

At the beginning of the academic year 2008-09, the total number of students enrolled in the higher education institutions was reported to be 18.5 million. Of the total enrolment, 11.2 million (60.7%) were boys and 7.3 million (39.3%) were girls (Figure 2). State-wise details are given in Table 7.

Figure 2: Growth in Enrolment in Higher Education in India

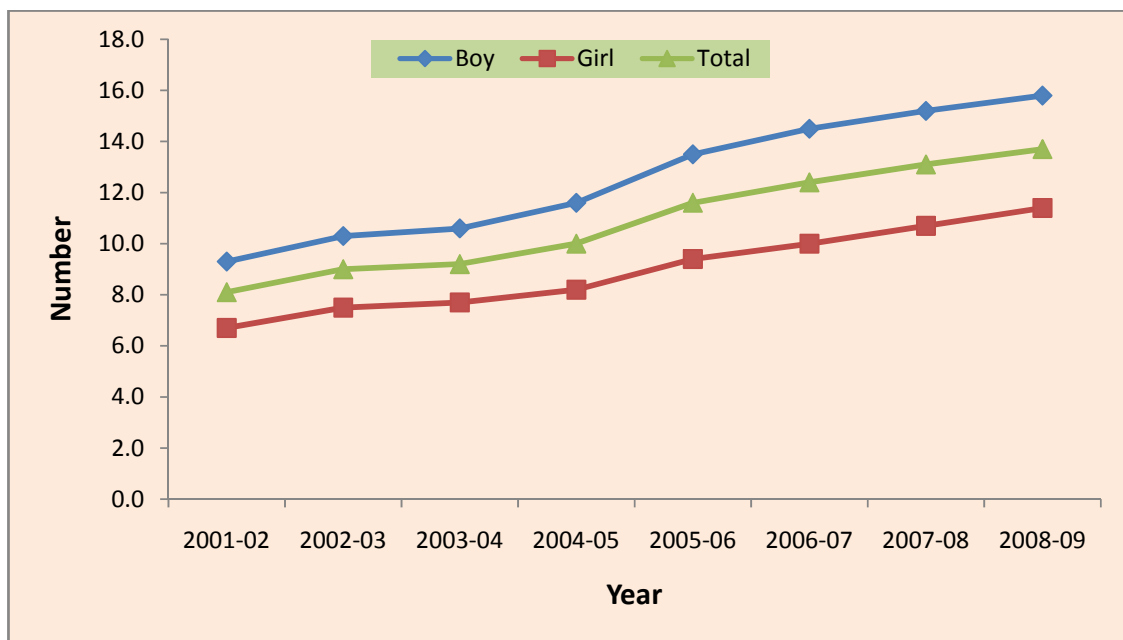

2.3 Gross Enrolment Ratio in Higher Education

Gross Enrolment Ratio of the country has increased exponentially since 2001 (Figure 3). It has increased with a Compound Annual Growth Rate (CAGR) of 7.8% during 2001-02 to 2008-09. This increase is of the order of 7.87% for Boys and 7.89% for Girls.

Though the overall demand for higher education in India is increasing, there are wide variations in Gross Enrolment Ratio (GER) across States

(Table 8). The GER at the higher education level ranges from as low as 2.3% in Daman & Diu to as high as 41.5% in Chandigarh. The GER is above national average of 13.7% in 18 States & UTs which includes Andhra Pradesh, Goa, Gujarat, Haryana, Maharashtra, Sikkim, Tamil Nadu, Uttarakhand and Chandigarh and less than the national average of 13.7% in 17 States & UTs that include Bihar, Chhattisgarh, Jharkhand, Madhya Pradesh, Odisha, Rajasthan, Uttar Pradesh and West Bengal.

Figure 3: Trend in Gross Enrolment Ratio in Higher Education

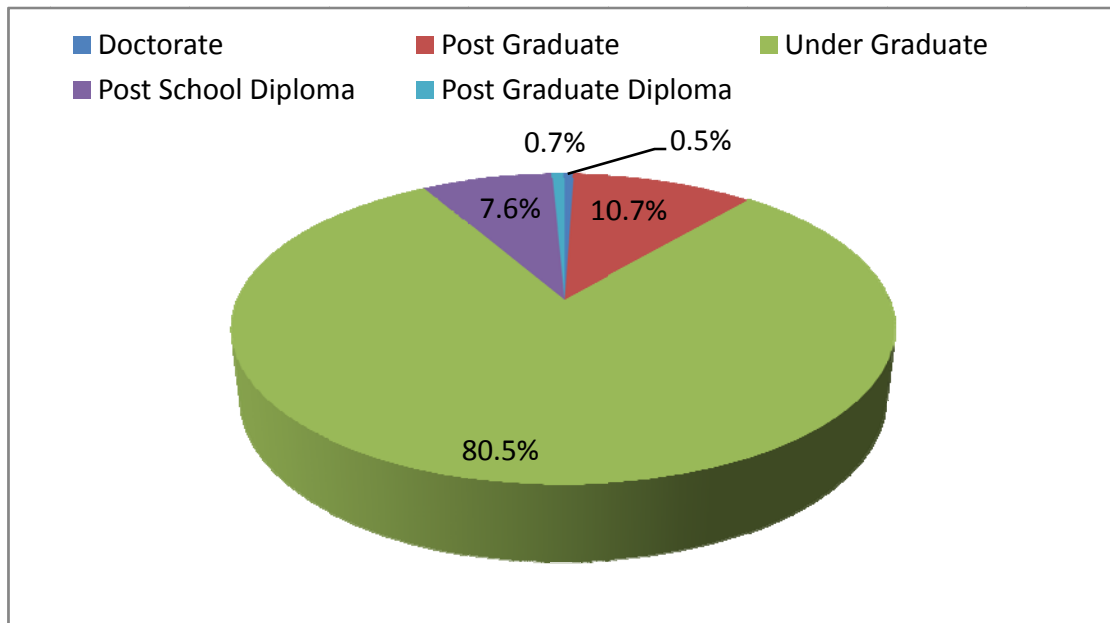

2.4 Enrolment in Higher Education by Levels

Of the total enrolment (excluding distance learning) in higher education, the share of Under Graduate students

is maximum 81%, followed by Post Graduate (11%) and Post School Diploma (7%). Enrolment in Doctorate level accounts for less than 1% of the total enrolment.

Figure 4: Enrolment by Levels in Higher Education Institutions in India

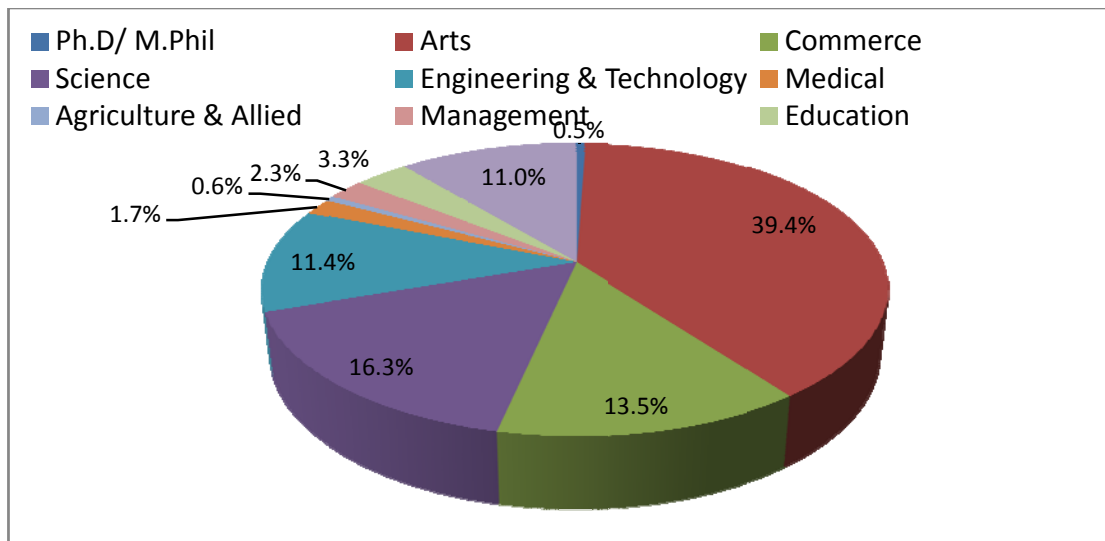

2.5 Enrolment in Higher Education by Stream

Of the total enrolment (excluding distance learning) in higher education, the share of Arts students is maximum 39%, followed by Science (16%) and Commerce (14%). Engineering & Technical, Education, Medical and

Management students accounts for about 11%, 3%, 2% and 2% respectively in total enrolment. The share of students On-Roll in Open Universities is about 18% (18% Boys and 16% Girls) of total enrolment in higher education system in the country.

Figure 5: Enrolment by Streams in Higher Education Institutions in India

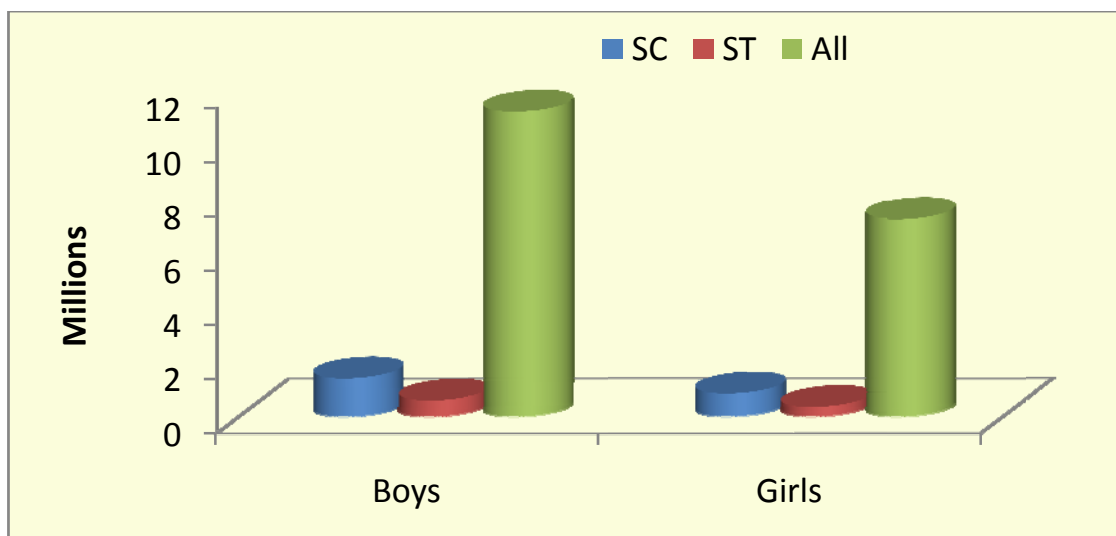

2.6 Enrolment of SCs and STs

At present, participation of Scheduled Castes and Scheduled Tribes is about 12.2% and 5.1% respectively of the total students in the higher education system though the distribution is spread unevenly across States. If we

look at the Gross Enrolment Ratio (GER) of SC & ST students as compared to total we find that the ratio is 10.5 for SC students and 9.2 for ST students as compared to 13.7 for all categories of students. State-wise variation may be seen in Table 8.

Figure 6: Share of SCs and STs in Total Enrolment in Higher Education

3. Enrolment of International Students

3.1 Total enrolment of International Students in the Indian Universities/ Institutions of higher education in 2006-07 was 14654 of which 5278 were girls. It may be seen from Figure 7 that 9733 (66%) students out of 14564 Foreign students enrolled in the faculties of Arts, Science and Commerce & Management. Professional courses like Engineering & Technology and Medical Education attracted about 24% of the total foreign students enrolled in India. Lower enrolment is seen in the streams like Agriculture, Veterinary science and Law.

3.2 If we look at the enrolment of international students by level of studies, we find that the students' enrolment is maximum at Graduate Level (62%) followed by Postgraduate Level (27%). Enrolment in Ph.D./ M.Phil and other Diploma and Certificate level courses is very low (Figure 8).

As regard to share of girls' enrolment at different levels, it is found that percentage share of Girls out of Total is maximum (53%) in Certificate level courses followed by Under Graduate (41%) & M.Phil (39%) level (Figure 9).

Figure 7: Faculty-wise Enrolment of International Students in Indian Universities/ Institutions of Higher Education

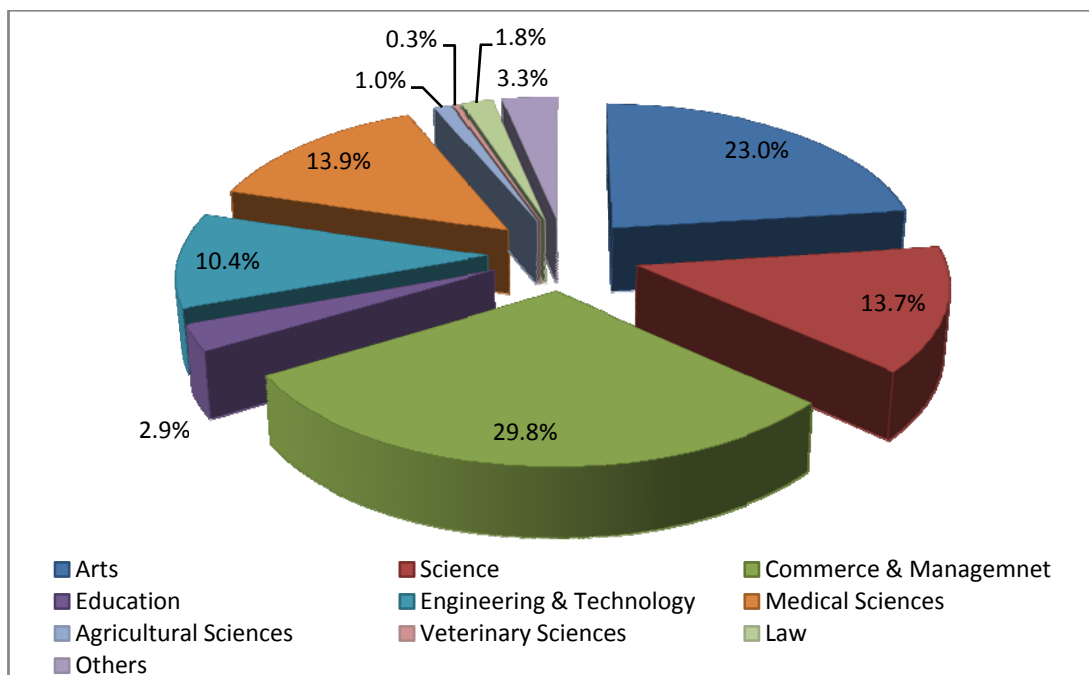

Figure 8: Level-wise Enrolment of International Students in Indian Universities/ Institutions of Higher Education

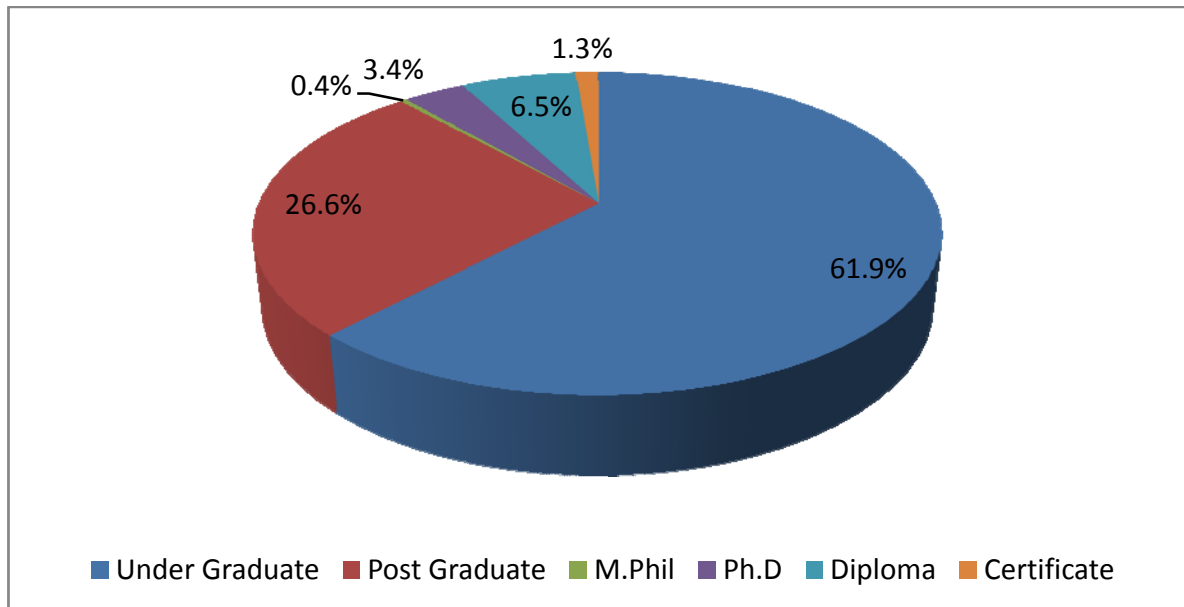

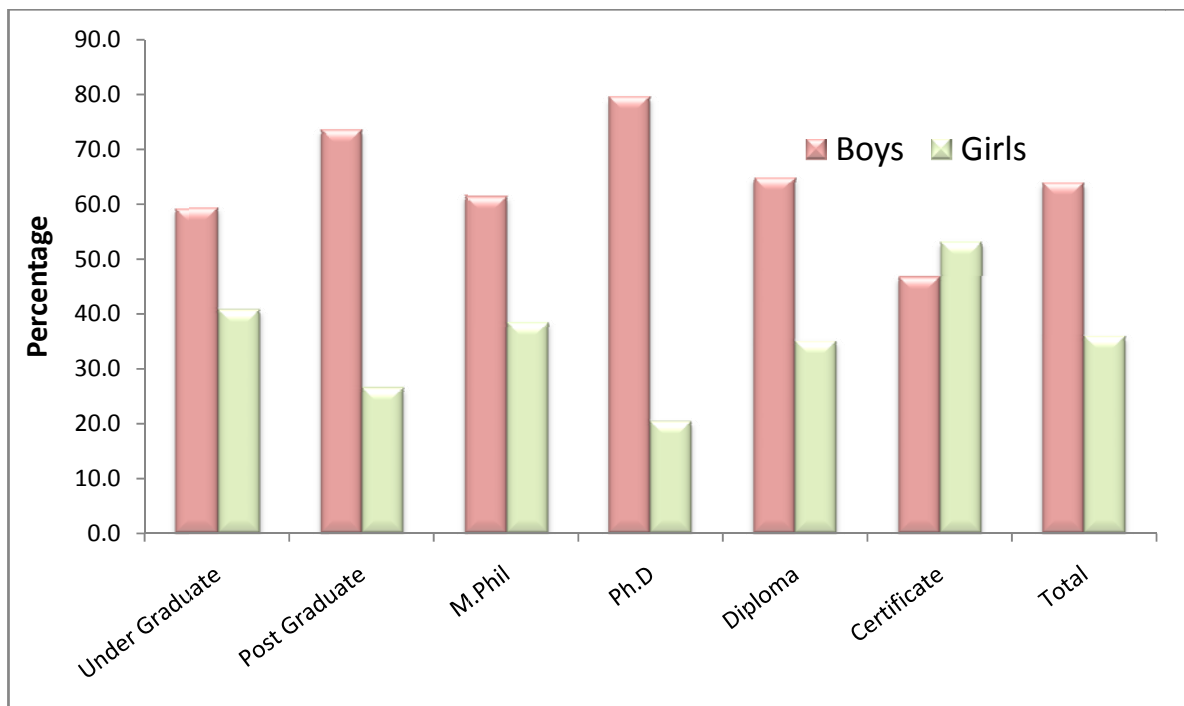

Figure 9: Level-wise Share of Boy & Girl International Students in Indian Universities/ Institutions of Higher Education

4. Financing of Higher Education

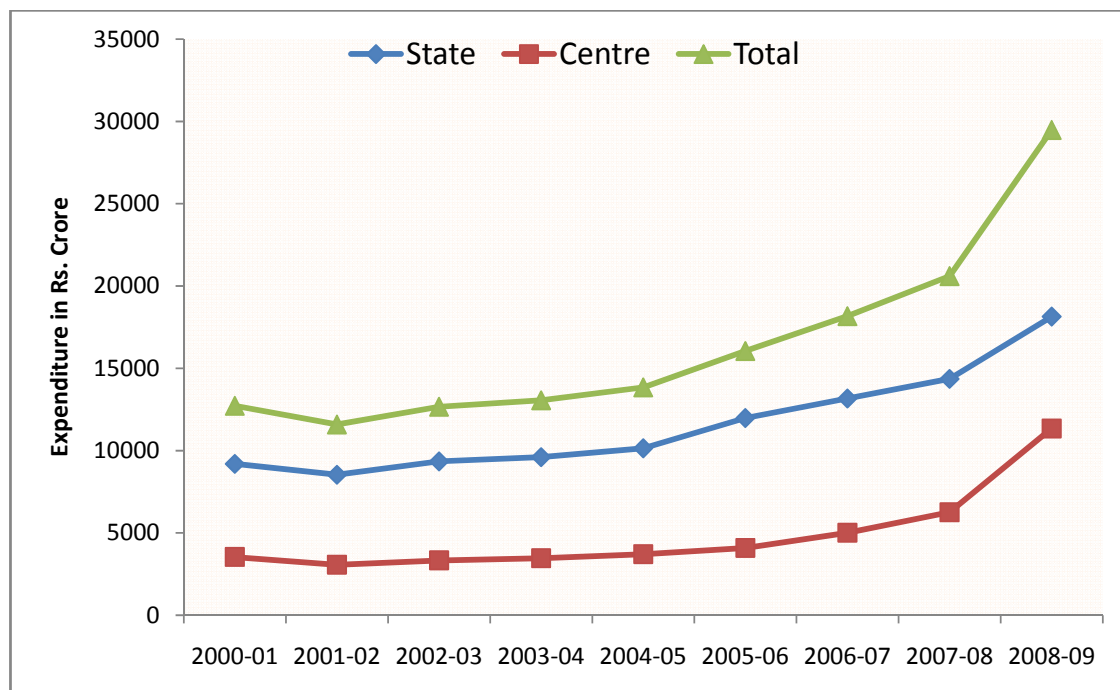

4.1. Central and State governments both share the responsibility of funding higher education. The central plan and non-plan expenditure accounts for 38% and the state plan and non-plan expenditure accounts for 62% of public spending on all government managed institutions as well as a segment of private managed institutions. There are several private managed institutions which raise funding from self financing programmes and do not depend upon government.

4.2 Public Funding of Higher Education

The public expenditure is broadly given by Sector-wise plan & non-plan budgeted expenditure for education departments of state & centre on revenue account.

The compound annual rate of growth of total public expenditure on higher education by education departments during 2000-01 to 2008-09 was about 11%. The growth rate of state expenditure was about 8.9% whereas the Centre has increased its spending by about 15.7% during the same period (Figure 10).

Figure 10: Trend in Public Expenditure on Higher Education by Education Departments
